

MUDA SHERPA

Muda Sherpa is a unique name for a very unique group. Muda Sherpa means "young guide" which is what we see ourselves as being. We, as disciples, want to guide others to Christ, even when we are young. We understand our job as radical disciples. Muda Sherpa is made up of very unique members, from as far away as Indonesia and Singapore, and as close as Belle Plaine. We are not the traditional second-years, for we have members of every age. Most in our group traveled to Costa Rica together for a mission trip, and grew closer as a team while spreading God's love to a different part of the world. Then, we were able to share that experience with the rest of our group, bringing us closer together through shared testimony. We are excited to carry out our time in Discipleship and to continue guiding others in the right direction, even when we are not so young anymore.
