This Basic Calculator can be used to predict expected degree completion figures for a single student or an entire cohort of students at a college or university. For sex and race/ethnicity, insert the percentage of students in each category (percentages must total 100%). For SAT/ACT, enter either the SAT average or ACT average of the cohort. For high school grade, enter the appropriate score (1 to 8) for the high school grade average of the cohort. This calculator will display expected graduation figures at four, five, and six years.

Sex	
Female	<input type="text" value="50"/>
Male	<input type="text" value="50"/>
SAT / ACT	
Mean SAT or ACT score	<input type="text" value="23"/>
SAT Critical Reading + Mathematics (range 400-1600) ACT Composite (range 11-36)	
Race/Ethnicity	
American Indian	<input type="text"/>
Asian	<input type="text"/>
Black/African-American	<input type="text" value="15"/>
Latino	<input type="text" value="10"/>
White/Caucasian	<input type="text" value="75"/>
Other Race/Ethnicity	<input type="text"/>
More than one race/ethnicity	<input type="text"/>
High School Grade	
High School Grade score	<input type="text" value="6"/>
8 = A/A+ 7 = A- 6 = B+ 5 = B 4 = B- 3 = C+	

2 = C
1 = D

Calculate

Expected Degree Completion Rates

HERI Expected Graduation Rate Calculator

A more extensive calculator, using data from the CIRP Freshman Survey, can provide an institution with a more precise expected graduation rates. We made this calculator available to colleges and universities that participated in the CIRP Freshman Survey in 2004 and 2010. It will become part of CIRP standard reporting starting in 2011. All other institutions can download a sample version of the expanded calculator [here](#). (DARCU/CCSampleCalculator.xls) The sample version is solely intended to demonstrate the added value of the calculator, and should not be relied upon for the calculation of expected graduation rates.

The methodology used to create both calculators is detailed in the HERI monograph *Completing College: Assessing Graduation Rates at Four-Year Institutions*. (DARCU/CompletingCollege2011.pdf)
